SUMMARY

B.Tech Computer Science graduate seeking an entry-level software development opportunity. Possess hands-on experience with Node.js, Express.js, MySQL, REST APIs, and backend application development through academic projects and internship experience.

EDUCATION

College Of Engineering, Cherthala - APJ Abdul Kalam Technological University

2022 - 2026

Bachelor of Technology in Computer Science & Engineering

- CGPA: 8.56 / 10

Bhavans Vidya Mandir, Elamakkara [CBSE]

2020 - 2022

Higher Secondary - Computer Maths

- Percentage: 89.4%

INTERNSHIP EXPERIENCE

Software Developer Trainee, Apps Team Technologies Pvt. Ltd., Kochi

July 2026 - August 2026

- Developed an Employee CRUD application using Node.js, Express.js, and Sequelize, gaining hands-on experience in backend development and database operations.
- Designed, implemented, tested, and documented REST APIs using Swagger, with a focus on API structure and client-server communication.
- Studied and implemented Microservices Architecture, including communication between different services and understanding service-based application design.
- Worked with Apache Kafka to understand and implement event-driven, asynchronous communication between backend services.
- Explored Apache Cassandra and gained practical understanding of distributed NoSQL databases, along with integrating backend technologies in scalable application architectures.

Software Development Intern, Waves Electronics Pvt. Ltd., Kochi

December 2025 - March 2026

- Designed and developed an employee portal (Waves Portal), including an admin dashboard and timesheet system improving employee workflow, tracking and accessibility.
- Implemented backend integration and handled end-to-end deployment, including server setup and Nginx configuration.
- Established internal infrastructure with DNS (Technitium) and WireGuard VPN, enabling secure remote access, improved system reliability, and centralised management.

Flutter Mobile App Development Intern, BEO Software Pvt. Ltd., Kochi

June 2025

- Gained hands-on experience in Flutter mobile application development.
- Worked on building UI components, state management.
- Improved understanding of cross-platform app development and debugging practices.

PROJECTS

ACADS (BTech Final year Project)

React, Node.js

- Collaborated in the development of a web-based College Office Management System.
- Designed and developed responsive UI for Login, Signup, and Landing pages.
- Implemented secure backend user authentication with proper validation and access control.
- Independently developed a Flutter-based mobile application for students, integrated with backend APIs.
- Implemented push notification functionality in the web platform and mobile app for real-time communication.
- Worked on additional academic and administrative modules.

GigGo - Event Staffing Platform(BTech Mini Project)

Next.js, React, Tailwind CSS, MongoDB, NextAuth

- Collaborated in building this full-stack gig marketplace from scratch, connecting job seekers and employers for short-term roles.
- Implemented secure user authentication with NextAuth, handling full login, session management, and protected routes.
- Designed and developed dynamic job listings with filtering, application tracking, and profile viewing—features used by 100% of registered users.
- Integrated OpenStreetMap API for location-based gig discovery and optimized it with debouncing, reducing external API calls by ~70%.
- Developed a fully responsive UI using Tailwind CSS, achieving smooth performance across >95% screen sizes and devices.
- Optimized server-side rendering with Next.js to ensure faster page loads, improved SEO, and better search visibility.

TECHNICAL SKILLS

- Languages & Frameworks: Python, JavaScript, C, Java, HTML, CSS, React, Flutter, Node.js
- Tools & Technologies: MySQL, Firebase, Supabase, Sequelize, Apache Cassandra, Apache Kafka
- Frontend & UI Development: Tailwind CSS, Bootstrap
- DevOps & Additional Tools & Technologies: Git, GitHub
- Machine Learning(Course Work)
- Artificial Intelligence (Course Work)
- Microsoft Word
- Microsoft PowerPoint

ACHIEVEMENTS

- 1st Place - IEEE Xtreme 2024 (College Level)
- IEEE WIE(Women In Engineering) Chair: 2022-2023 (College SB Level)
- 3rd Place - SPACS Hackathon (2024)
- Recognized with Kalathilakam honor for cultural excellence at College of Engineering Cherthala, 2025.

SOFT SKILLS

- Hardworking and dedicated
- Time management and organizational skills
- Attention to detail
- Team Collaboration
- Problem Solving
- Decision Making

HOBBIES

- Classical Singer
- Passionate in designing webpages
- Passionate in baking
